FUNCTIONS DESCRIPTION MANUAL

Coverage	Nanocom 1 and EVO
ECU	SRS - Airbag
List of Functions	<ul style="list-style-type: none">○ Faults○ Settings○ Status○ Vin

DIAGNOSTIC FUNCTIONS OF THE SRS-Airbag (DISCOVERY II)

All the diagnostic functions have to be performed with the Ignition turned on to stage II and the engine may be running or stopped.

FAULTS FUNCTIONS

The SRS ECU has the READ FAULTS and CLEAR FAULTS to read and clear the fault codes. We do not give any faults explanation or suggestions, in order to avoid giving wrong information to the user; we think in fact that the faults codes must be collocated in the context of the car which they come from.

SETTINGS FUNCTIONS

Settings page covers information like:

Manufacturer	Model	Software Version	Hardware Version
Serial	Date	Part Reference	Part Number

Status information for:

Driver airbag	Passenger airbag	RH Pretensioner	
Driver side airbag	Passenger side airbag	LH Pretensioner	Rolamites

Vehicle VIN

Shows the vehicle VIN stored in the ECU which can be altered by entering new VIN number in the designated field and press Write VIN button.
